E-FILED 5/21/07

UNITED STATES DISTRICT COURT
NORTHERN DISTRICT OF CALIFORNIA
SAN JOSE DIVISION

FACEBOOK, INC.

Plaintiff,

v.

CONNECTU LLC, et al.

Defendants.

Case No. C 07-01389 RS

**ORDER GRANTING IN PART AND
DENYING IN PART DEFENDANTS'
MOTION TO DISMISS**

I. INTRODUCTION

Plaintiff Facebook, Inc. contends that defendant ConnectU, Inc¹. engaged in common law misappropriation and violated numerous statutes when it allegedly collected email addresses of Facebook's registered users posted on its website and then sent commercial email to those persons. Pursuant to Federal Rule of Civil Procedure 12 (b) (6), ConnectU moves to dismiss portions of the complaint. The motion was fully briefed and heard by the Court on May 2, 2007. Based on all papers filed to date, as well as on the oral argument of all the parties, the Court grants the motion in part and denies it in part.

¹ ConnectU apparently was originally formed as an LLC, but is now known as ConnectU, Inc.

1 II. BACKGROUND

2 This action was removed from Santa Clara Superior Court when Facebook filed an amended
3 complaint containing claims giving rise to federal question jurisdiction. Facebook and ConnectU
4 operate competing social networking websites on the Internet.² Facebook contends that ConnectU
5 accessed the Facebook website to collect “millions” of email addresses of Facebook, and then sent
6 emails to those users soliciting their patronage. Specifically, Facebook alleges ConnectU hired
7 defendant Pacific Northwest Software and defendant Winston Williams to write software for
8 accessing Facebook’s website and collecting information including email addresses available to
9 registered users of the website but not generally made available to the public. First Amended
10 Complaint (“FAC”), ¶¶17-19. Facebook further alleges that ConnectU distributed solicitation
11 emails to members of Facebook using the email addresses it obtained. FAC ¶22.

12 The complaint asserts seven causes of action.³ ConnectU moves to dismiss five of those:
13 (1) the First Cause of Action– Violation of California Penal Code §502(c); (2) the Second Cause of
14 Action– Common law misappropriation; (3) the Fourth Cause of Action– Violation of California
15 Business and Professional Code § 17529.4; (4) the Fifth Cause of Action– Violation of California
16 Business and Professional Code § 17538.45; and (5) the Sixth Cause of Action– Violation of 15
17 U.S.C. § 7701, et seq.

18
19 III. STANDARDS

20 A motion to dismiss under Federal Rule of Civil Procedure 12(b)(6) tests the legal
21 sufficiency of the claims alleged in the complaint. See *Parks Sch. of Business v. Symington*, 51 F.3d
22 1480, 1484 (9th Cir. 1995). Dismissal under FRCP 12(b)(6) may be based either on the “lack of a
23 cognizable legal theory” or on “the absence of sufficient facts alleged under a cognizable legal
24

25 ² ConnectU characterizes this lawsuit as “retaliatory” to an action it brought against
26 Facebook in Massachusetts alleging that Facebook’s founders misappropriated ConnectU’s
27 intellectual property when they created Facebook. The existence of that dispute has no legal
28 bearing on whether the challenged portions of the complaint state a claim.

³ Because the First Amended Complaint was filed in state court, it uses the
nomenclature “cause of action” rather than “claim for relief” or “count.”

1 theory.” *Balistreri v. Pacifica Police Dept.*, 901 F.2d 696, 699 (9th Cir. 1988). Hence, the issue on a
2 motion to dismiss for failure to state a claim is not whether the claimant will ultimately prevail but
3 whether the claimant is entitled to offer evidence to support the claims asserted. *Gilligan v. Jamco*
4 *Development Corp.*, 108 F.3d 246, 249 (9th Cir. 1997). When evaluating such a motion, the court
5 must accept all material allegations in the complaint as true and construe them in the light most
6 favorable to the non-moving party. *Cahill v. Liberty Mut. Ins. Co.*, 80 F.3d 336, 340 (9th Cir. 1996).
7 “[C]onclusory allegations of law and unwarranted inferences,” however, “are insufficient to defeat a
8 motion to dismiss for failure to state a claim.” *Epstein v. Washington Energy Co.*, 83 F.3d 1136,
9 1140 (9th Cir. 1996).

11 IV. DISCUSSION

12 A. State Court Demurrer

13 In opposing this motion to dismiss, Facebook argues that the state court previously overruled
14 a demurrer based on some of the same grounds advanced in this motion, and that ConnectU has
15 shown nothing that would warrant a departure by this Court from rulings made prior to the removal.
16 As ConnectU points out, however, there technically is no state court ruling as to the sufficiency of
17 the *amended* complaint. Had this matter not been removed, ConnectU would have been free to
18 renew on demurrer the same arguments it makes here. To be sure, the state court likely would not
19 have reached a different result upon being presented with those arguments again, but Facebook has
20 not shown that consideration of the arguments would have been foreclosed there. In federal court,
21 where distinct standards apply, there is even less reason to bar ConnectU from raising the points
22 again.⁴ That said, the motion to dismiss will be denied on the same points as the state court
23 demurrer was overruled, rendering unnecessary further consideration of the extent to which the prior
24 ruling should be considered binding or even persuasive.

27
28 ⁴ In general, of course, the notice pleading standards in federal court are, if anything,
less stringent than those in California courts.

1 B. First Cause of Action—California Penal Code Section 502(c)

2 California Penal Code Section 502 is entitled “*Unauthorized Access to Computers,*
3 *Computer Systems and Computer Data*” (emphasis added). Focusing on that title and on other
4 provisions within the section relating to accessing computer systems, ConnectU argues that nothing
5 in the FAC suggests its *access* to the Facebook website was “unauthorized” or undertaken “without
6 permission.” Apparently ConnectU accessed information on the Facebook website that ordinarily
7 would be accessible only to registered users by using log-in information voluntarily supplied by
8 registered users. Thus, ConnectU contends, it did not engage in “hacking” or other “unauthorized”
9 access of a type prohibited by the statute, and Facebook has not alleged otherwise. ConnectU argues
10 that Facebook may have a claim for breach of contract against the registered users who *supplied*
11 ConnectU with the login information, but that Facebook’s “terms and conditions of use” have no
12 applicability to ConnectU itself, which never registered as a user or agreed to those terms and
13 conditions.

14 ConnectU’s argument does not adequately address subdivision (c) of the statute, which
15 makes it a “public offense” if a person:

16
17 (2) *Knowingly accesses and without permission takes, copies, or makes use of any*
18 *data from a computer, computer system, or computer network, or takes or copies any*
19 *supporting documentation, whether existing or residing internal or external to a*
20 *computer, computer system or computer network.*

21 (Emphasis added.)

22 The FAC sufficiently alleges that ConnectU “knowingly” accessed Facebook’s website and
23 that it took, copied, or made use of data it found thereon “without permission.” ConnectU’s
24 argument that a private party cannot define what is or is not a criminal offense by unilateral
25 imposition of terms and conditions of use is not persuasive. The *statute* defines the criminal offense:
26 taking, copying, or using data “without permission.” The fact that private parties are free to set the
27 conditions on which they will grant such permission does not mean that private parties are defining
28 what is criminal and what is not.

1 Thus, notwithstanding the reference in the title to “unauthorized access,” Penal Code section
 2 502 prohibits *knowing* access, followed by *unauthorized* (i.e., “without permission”) taking,
 3 copying, or use of data. As the FAC alleges facts showing that ConnectU knowingly accessed
 4 Facebook’s website to collect, copy, and use data found thereon in a manner not authorized or
 5 permitted by Facebook, the motion to dismiss will be denied as to this claim.⁵

6
 7 C. Second Cause of Action–Common Law Misappropriation

8 ConnectU contends that Facebook’s common law misappropriation claim is preempted by
 9 the federal Copyright Act.⁶ There is no dispute that all state law causes of action falling within the
 10 scope of the federal Copyright Act are subject to preemption. *Laws v. Sony Music Entertainment,*
 11 *Inc.*, 448 F.3d 1134, 1137 (9th Cir. 2006). Section 301 of the Copyright Act sets forth two
 12 conditions that must be satisfied for preemption of a right under state law: 1) the work in which the
 13 right is asserted must come within the subject matter of copyright as defined in sections 102 and 103
 14 of the Copyright Act,⁷ and 2) the right that the authors seeks to protect must be equivalent to any of

15
 16
 17 ⁵ ConnectU also argues that no one held a reasonable expectation of privacy in the
 18 information it collected and that, to the contrary, Facebook users voluntarily disclosed their
 19 email addresses *knowing* that others would see them and be able to use them. ConnectU
 20 points to various language suggesting that *one* purpose the Legislature had in enacting Penal
 21 Code section 502 was to protect confidential information. Not only does this argument
 appear to discount unduly the right of Facebook users to disclose their email addresses for
 selective purposes, nothing in section 502 (c) limits its applicability to confidential
 information. ConnectU is attempting to import limitations from *other* portions of the statute
 into the subdivision at issue here.

22 ⁶ Facebook contends ConnectU waived its right to argue preemption by failing to
 23 raise it in its original demurrer in state court. Because preemption would appear to deprive
 24 the Court of subject matter jurisdiction, the argument likely is not subject to waiver. In view
 of the conclusion that there is no preemption, however, the Court need not consider the
 waiver issue.

25 ⁷ Section 102 of the Copyright Act extends copyright protection to “original works of
 26 authorship fixed in any tangible medium of expression,” including: 1) literary works; 2)
 27 musical works, including any accompanying words; 3) dramatic works, including any
 28 accompanying music; 4) pantomimes and choreographic works; 5) pictorial, graphic, and
 sculptural works; 6) motion pictures and other audiovisual works; 7) sound recordings; and
 8) architectural works. 17 U.S.C. § 102(a)(2006). Section 103 provides that “compilations
 and derivative works” fall within the subject matter of copyright. 17 U.S.C. §103 (2006).

1 the exclusive rights within the general scope of copyright as specified by section 106 of the
2 Copyright Act.⁸ 17 U.S.C. §301(a)(2006). *See Laws*, 448 F.3d at 1137.

3 The initial question is whether the subject matter of Facebook’s misappropriation claim is
4 within the subject matter of the Copyright Act. The parties agree that the data ConnectU allegedly
5 misappropriated is not subject to copyright protection *per se*. *See* ConnectU’s Reply Brief at 5; *see*
6 *also Sefton v. Jew*, 201 F.Supp.2d 730 (W.D. Tex. 2001) (stating that e-mail names, e-mail
7 addresses, and service marks are not copyrightable material even if used to identify a copyrighted
8 work). The inquiry does not end there, however, because preemption does not turn on whether the
9 copied *elements* are protectible under the Copyright Act, but on whether the subject matter is
10 *generally* within the “scope” of the Copyright Act. *See National Basketball Association v. Motorola,*
11 *Inc.*, 105 F.3d 841, 849 (2nd Cir. 1997) (“Copyrightable material often contains uncopyrightable
12 elements within it, but Section 301 preemption bars state law misappropriation claims with respect
13 to uncopyrightable as well as copyrightable elements.”)

14 Nevertheless, ConnectU has not shown that under a fair reading of the FAC it is alleged to
15 have misappropriated uncopyrightable “elements” of a work of authorship otherwise within the
16 scope of the Copyright Act. It seems likely, if not certain, that the Facebook website *includes*
17 material that would constitute “original works of authorship.” Indeed, the site presumably includes
18 such works created by Facebook’s users as well as by Facebook itself. The fact that the Facebook
19 website may *contain* works of authorship, however, does not automatically mean that the entire site
20 *is* a work of authorship within the subject matter of the Copyright Act.

21
22
23 ⁸ Section 106 of the Copyright Act provides that the owner of the copyright has the
24 exclusive rights to do and to authorize any of the following: 1) to reproduce the copyrighted
25 work in copies or phonorecords; 2) to prepare derivative works based upon the copyrighted
26 work; 3) to distribute copies or phonorecords of the copyrighted work to the public by sale or
27 other transfer or ownership, or by rental, lease, or lending; 4) in case of literary, musical,
28 dramatic, and choreographic works, pantomimes, and motion pictures and other audiovisual
works, to perform the copyrighted work publicly; 5) in case of literary, musical, dramatic,
and choreographic works, pantomimes, and pictorial, graphic, or sculptural works, including
the individual images of a motion picture or other audiovisual work, to display the
copyrighted work publicly; and 6) in case of sound recordings, to perform the copyrighted
work publicly by means of a digital audio transmission. 17 U.S.C. §106 (2006).

1 The email addresses at issue undisputedly are not works of authorship or protectible under
 2 copyright law at all. ConnectU’s preemption theory, therefore, turns on the premise that those
 3 addresses are merely “elements” of some larger work of authorship that *is* within the scope of
 4 copyright law. ConnectU has not shown, however, that the allegations of the FAC support such a
 5 conclusion. Rather, to use a pre-Internet analogy, it appears that Facebook’s website is in a sense
 6 similar to a community billboard, on which any number of individuals might post information.
 7 Some of those postings might very well be “works of authorship”—the most obvious example arising
 8 if a member of the community posted a copy of a poem or short story he or she had written. The
 9 organization that owned the bulletin board might also claim authorship in any general notices it
 10 posted thereon. None of that, however, would necessarily make the bulletin board *as a whole* a
 11 work of authorship or give rise to copyright preemption with respect to a claim for
 12 misappropriation of some uncopyrightable facts posted on it.

13 In short, nothing in the FAC suggests that Facebook is seeking to protect through a common
 14 law misappropriation claim uncopyrightable *elements* of some larger work of authorship that is
 15 protectible only to the extent provided by the Copyright Act.⁹ Accordingly, the claim is not
 16 preempted and this prong of the motion to dismiss will be denied.¹⁰

17
 18 C. Fourth and Fifth Causes of Action—Cal. B& P Code §17529.4 and §17538.45

19 California Business and Professions Code sections 17529.4 and 17538.45 proscribe conduct
 20 of the very nature that ConnectU is alleged to have engaged in here. ConnectU contends, however,
 21 that these California statute are preempted by 15 U.S.C § 7707 (b) (1), a provision of the so-called
 22

23
 24 ⁹ There may be instances where an entire website consists of a work of authorship.
 From Facebook’s description of how it operates as alleged in the FAC, however, this does
 25 not appear to be such an instance.

26 ¹⁰ In view of the conclusion that the allegedly misappropriated material does not fall
 within the scope of copyright protection, the Court need not reach the question of whether
 27 the state law claim contains an “extra element” such as a breach of fiduciary duty that would
 avoid preemption. As noted at the hearing, however, that analysis would turn on the
 28 elements of the claim and *not* on whether Facebook has *pleaded* additional facts, beyond
 those required by the common law to state a claim for misappropriation.

1 “CAN-SPAM Act.” That section provides:

2 This chapter supersedes any statute, regulation, or rule of a State or political
3 subdivision of a State that expressly regulates the use of electronic mail to send
4 commercial messages, except to the extent that any such statute, regulation, or rule
prohibits falsity or deception in any portion of a commercial electronic mail message
or information attached thereto.

5 Facebook first argues that there is no preemption because the use of the term “supersedes” in
6 the CAN-SPAM Act should be understood as reflecting an Congressional intent only to preempt
7 *then-existing* state laws. Although Facebook points to other statutes that arguably more clearly
8 preempt both existing and later-enacted state laws, it cites no authority for the novel proposition that
9 a provision of federal law that expressly “supersedes” state law is ineffective to reach later-enacted
10 state laws.

11 Facebook also contends that Business and Professions Code section 17529.4 falls outside the
12 scope of CAN-SPAM preemption because it “primarily” regulates the *collection* of email addresses,
13 whereas the preemption clause refers only to state statutes regulating the *sending* of commercial
14 email. The section makes it unlawful “for any person or entity to collect electronic mail addresses
15 posted on the Internet if the purpose of the collection is for the electronic mail addresses to be used
16 to . . . [i]nitiate or advertise in an unsolicited [i] commercial e-mail advertisement” Facebook
17 argues, therefore, that it is possible to violate section 17529.4 even if emails are never actually sent,
18 as long as the *intent* to do so exists. Facebook may be correct that technically a violation of section
19 17529.4 could arise prior to any emails actually being sent, but it plainly still “regulates the use of
20 electronic mail to send commercial messages” within the preemptive effect of the CAN-SPAM Act.

21 Finally, Facebook contends that both section 17529.4 and section 17538.45 fall within the
22 exclusion from preemption provided in the CAN-SPAM Act for state laws that “prohibit[] falsity or
23 deception.” In making this argument, Facebook contends that ConnectU’s alleged conduct was
24 “deceptive.” Whether or not Facebook has alleged or could allege deceptive or fraudulent conduct
25 on the part of ConnectU is beside the point, however. Neither section 17529.4 nor section 17538.45
26 purport to regulate false or deceptive email, or require such falsity or deception as an element of the
27 statutory violation. Accordingly, the statutes are preempted and Facebook’s claims based thereon
28

1 must be dismissed.¹¹ In light of this conclusion, the Court need not reach ConnectU's further
2 contention that Facebook lacks standing under these statutes to pursue a private cause of action.

3
4 D. Sixth Cause of Action—the CAN-SPAM Act

5 The CAN-SPAM Act authorizes any “provider of Internet access service adversely affected”
6 by certain violations of the Act to bring a civil action. 15 U.S.C. § 7706 (g). By reference to 47
7 U.S.C. § 231 (e) (4), the CAN-SPAM Act defines “internet access service” as “a service that enables
8 users to access content, information, electronic mail, or other services offered over the Internet, and
9 may also include access to proprietary content, information, and other services as part of a package
10 of services offered to consumers.” 15 U.S.C. § 7702 (11). Although this definition appears
11 primarily to contemplate services that provide consumers their initial *connection* point to the
12 Internet, the language is broad enough to encompass entities such as Facebook that provide further
13 access to content and communications between users for persons who may initially access the
14 Internet through a conventional “internet service provider.” Accordingly, ConnectU's contention
15 that Facebook lacks standing to pursue this claim fails.

16 As Facebook freely acknowledges, however, to state a claim under CAN-SPAM it must
17 allege that ConnectU sent email containing “materially false or materially misleading” header
18 information. 15 U.S.C § 7704 (a) (1).¹² The statute defines false or materially misleading headers to
19 include “information that is technically accurate but includes *an originating electronic mail address,*
20 *domain name, or Internet Protocol address the access to which for purposes of initiating the message*
21 *was obtained by means of false or fraudulent pretenses or representations”* (Emphasis added.)

22
23 ¹¹ At the hearing, ConnectU conceded that Facebook should be given leave to amend
24 these claims. Accordingly, such leave is granted. Because preemption appears to arise from
25 the language of the statutes and not as a result of the fact Facebook has or has not pleaded,
however, a good faith attempt to re-plead may well be problematic.

26 ¹² The “Congressional findings and policy” of the CAN-SPAM Act include an
27 observation that, “[m]any senders of bulk unsolicited commercial electronic mail use
28 computer programs to gather large numbers of electronic mail addresses on an automated
basis from Internet websites or online services where users must post their addresses in order
to make full use of the website or service.” 15 U.S.C. § 7701 (10). Facebook has pointed to
no provision in the Act, however, that forbids that practice in and of itself.

1 In its opposition, Facebook contends its has sufficiently alleged deception in connection with the
2 manner in which ConnectU gathered the *destination* email addresses. Even assuming that conduct
3 was deceptive or fraudulent, however, nothing in the complaint suggests that emails subsequently
4 sent to those addresses included headers that were misleading or false as to the *source* from which
5 they originated, or in any other manner.

6 At the hearing, Facebook asserted that it can truthfully allege that at least some of the emails
7 sent by ConnectU *did* contain false or misleading header information. Accordingly, this claim will
8 be dismissed with leave to amend.

9
10 IV. CONCLUSION

11 For the reasons set forth above the motion to dismiss the First and Second Causes of Action
12 is denied. The motion to dismiss the Fourth, Fifth, and Sixth Causes of Action is granted, with leave
13 to amend. Any amended complaint shall be filed within 20 days of the date of this order.

14
15 IT IS SO ORDERED.
